

MOHAMED MOSTAFA ABDELKADER

Backend Developer

Sharjah, UAE | +971 50 593 4245 | dev.xmuameed@gmail.com | linkedin.com/in/xmuameed

Summary

Back-End Developer with 4+ years of experience building secure back end services and server-side applications with Node.js, NestJS, Express.js, TypeScript, and JavaScript (ES6+). Designs SQL data models in PostgreSQL with Prisma ORM, works with MySQL and MongoDB, and implements JSON Web Token (JWT) authentication and authorization. Delivers payment integrations and performance improvements for enterprise and e-commerce platforms through REST (Representational State Transfer) application programming interfaces (APIs), with cross-functional teams in Agile environments.

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Backend: Node.js, NestJS (Nest.js), Express.js, REST APIs, Prisma ORM (object-relational mapping), secure JSON Web Token (JWT) authentication and authorization

Databases: SQL (Structured Query Language) with PostgreSQL and MySQL, MongoDB (NoSQL)

Frontend: React.js, Next.js, Tailwind CSS, Redux Toolkit and Zustand for state management, Bootstrap, Three.js, responsive web design (HTML and CSS)

Tools: Git, GitHub (version control), CI/CD (continuous integration and continuous delivery) with GitHub Actions, Postman, Figma, Stripe, Tabby, Google Analytics, Meta Pixel, Agile

Spoken languages: Arabic (Native), English (Full professional proficiency)

Experience

Full Stack Developer | Dia Flower Group (Hybrid, Dubai, UAE) | Sep 2025 – Present

- Built the Dia Flower and Luvi Flowers e-commerce platforms with Next.js, NestJS, React.js, PostgreSQL, and Prisma ORM.
- Developed a React.js admin dashboard for products, orders, inventory, and content, so non-technical teams manage the site on their own.
- Integrated third-party Stripe and Tabby payments plus Google Analytics and Meta Pixel, improving search engine optimization (SEO) and application performance.

Full Stack Developer | Forever Group (Hybrid, Dubai, UAE) | 2025 – Present

- Developed enterprise applications for Forever Events and Red Events with React.js, Next.js, and NestJS.
- Built scalable NestJS APIs, authentication, and responsive React.js interfaces for business operations.
- Collaborated with distributed teams to deliver production-ready React.js, Next.js, and NestJS features.

Full Stack Developer | Global Dynamics (Remote, Iraq) | 2025

- Developed full-stack applications with React.js, Node.js, NestJS, Prisma ORM, and PostgreSQL.
- Built real-time dashboards with NestJS and optimized backend performance for PostgreSQL enterprise systems.

Frontend Developer | Global Lean Industry (GLI), Grwan Group (Remote, UAE) | Mar 2025 – Oct 2025

- Developed enterprise applications with React.js, Next.js, and TypeScript.
- Improved application performance and built reusable user interface (UI) components with Tailwind CSS.

Full Stack Developer | Mark & Success (Remote, Egypt) | Jun 2024 – Oct 2024

- Built full-stack features with React.js, Node.js, NestJS, Express.js, and Prisma ORM.
- Developed RESTful APIs and improved backend performance with NestJS, Express.js, and Prisma ORM.

Frontend Developer | RASID (Hybrid, Cairo, Egypt) | Nov 2023 – Mar 2025

- Developed enterprise-level applications with React.js and Next.js, serving 10+ teams.
- Built a React.js and Next.js facility management platform with real-time reporting, SOS, human resources (HR), and attendance tracking for 15,000+ users.
- Designed a React.js UI customization card builder that improved configuration efficiency by 40%.
- Integrated 3D facility monitoring with Three.js, reducing incident response time.

Education

Bachelor's Degree in Accounting | Cairo University | 2020 – 2024
